#### **Talmud Torah Curriculum 2019-2020**

Our curriculum focuses on:

- Hebrew language, primarily prayer based Hebrew, but also some modern vocabulary and grammatical structures
- Sacred texts, such as Torah, Prophets, and Writings (Tanach)
- Traditions, including holidays, Shabbat, and life cycle events
- Ethics and values, including Tzedakah and other Mitzvot
- History and Jewish identity

Our teachers make learning come alive through creative use of drama, arts and music, as well as through the group celebration of the holidays. We also engage our children and their families in *Mitzvah* projects.

The program involves the whole family in the learning experience. We invite families to participate in specific school programs and also encourage children, with their families, to participate in Beth Elwide programming. Talmud Torah children and their families also have a special role in designated children's Shabbat programs—Jr. Jr. Congregation, Junior Congregation, and designated Friday night services. The Talmud Torah also provides parents with ideas for incorporating Judaism into life at home.

Beth El is currently undergoing an evaluation process with regards to the curriculum. The curriculum was established fairly recently, with expressed goals for each year. For example, Kindergartners learn to recognize most Hebrew block letters. First graders will learn to read and write all Hebrew letters in block print and sight-read certain words. Fluency with reading and writing increases yearly so that by the time students are in the seventh grade, they will have achieved the competency and confidence required for *Bar/Bat Mitzvah* and participation in community services.

The Beth El curriculum presents a course of study which engages our students and equips them with the skills they need to become thoughtful, socially conscious and Jewishly literate members of the greater Jewish community.

Our curriculum is always a rough draft. Talmud Torah believes that this state is the best in which to be constantly revising, reflecting and evaluating the process. We welcome feedback from parents and rely on faculty input in order to best meet the needs of our students and families.

#### **Curricular Components**

The following components (and their definitions) are the basic "units" that each teacher will incorporate into his/her lesson plans for each week.

- Hebrew language: Both the reading and writing of block Hebrew.
- Prayer: The reading and chanting of specific prayers with the goal of fluency and participation in synagogue services. In -depth analysis of selected *T'fillot* with the goal of understanding the meaning and when the prayer is recited.
- Tanach (Bible)/History: The details of the stories and characters in the 5 books of the Torah as well as Nevi'im (Prophets) and Ketuvim (Writings) and how we transition from biblical stories to Jewish History.
- Israel: Culture, history and geography.
- Ethics/*Mitzvot*/Jewish Identity The importance of *Tzedakah* in Jewish Life, as well as values, ethics and theology as they relate to Judaism. The traditions that are commonly practiced during Shabbat, the Holidays and Life-Cycle events, including methods of how we worship.

#### KITAH ZAYIN (7th grade)

Kitah Zayin acts as a complimentary program to our B'nei Mitzvah preparation program. It focuses primarily on what it means to and how to be a Jewish adult in the Beth El community and the greater Jewish and secular community. Over the course of the year, the group will form a classroom community in which students will celebrate, care about, support, and teach one another. Our goal is to help the students make educated decisions about their religious involvement and practices and establish/form their own Jewish identities. Additional units or lessons may be added based on student interest, special events taking place in the community, or the unique backgrounds/skills of community members. Some topics listed below may be covered through Family Beit Midrash led by the Rabbi or another member of the community.
